## Data Collection/Application Dates

With the passage of state and federal legislation requiring the Arizona Department of Education to calculate school, district and state accountability decisions, Research and Evaluation has developed a comprehensive timeline for data collection and supporting application deadlines. **These deadlines will be strictly adhered to in order to meet extremely stringent reporting timelines.**

Please be aware that A.R.S. § 15-241(b) states that “Each school shall submit to the department any data that is required and requested and is necessary to compile an achievement profile. A school that fails to submit the information that is necessary is not eligible to receive monies from the classroom site fund established by § 15-977.”

Additionally, the Arizona Department of Education has developed policy regarding competitive federal grant awards to LEAs that are out of compliance with state and/or federal regulations. The Arizona Department of Education will not consider eligible for grant awards any applicant, organization or entity who is out of compliance with applicable federal or state law, regulation, department rule, policy, state plan or the provisions of any grant application.

**Failure to submit the following data or adhere to Research and Evaluation timelines may result in the withholding of classroom site fund monies as indicated in A.R.S. § 15-241 and/or make the LEA ineligible for competitive federal grants.**
